

Aasraa Trust – Website Safety and Security policy

Effective date: August 30, 2018

Is it safe to do transactions on the Aasraa Trust website (<https://aasraatrust.org>)?

Yes, carrying out transactions at the Aasraa Trust website is safe.

All Credit card and Debit card payments on the Aasraa Trust website are processed through secure and trusted payment gateways managed by leading Indian banks.

The Aasraa Trust website uses the best technology to protect your card information while securely transmitting it to the Banks for processing the payment.

Furthermore, the Banks ask you to enter an online password (also known as 3D Secure password) which acts as an additional layer of security for your card transaction. This 3D Secure password is not printed anywhere on the card and is known only to you, giving you the added assurance that only you can use your card to make purchases on the Internet. This makes your online transaction on the Aasraa Trust website extremely safe and secure.

You can be assured that the Aasraa Trust website offers you the highest standards of security currently available on the internet so as to ensure that your experience is private, safe and secure.

Does the Aasraa Trust website store my Credit/Debit card/Netbanking information?

The Aasraa Trust website stores the first 6 and last 4 digits of your card number in a secure and encrypted manner. the first 6 digits (also known as the Bank Identification Number) are used to identify the bank name and country where your card was issued.

The first 6 and last 4 digits are together used for fraud detection and prevention purposes.

The Aasraa Trust website does not store any Netbanking details.
